Objective

Aspiring penetration tester with a solid foundation in cybersecurity, skilled in vulnerability assessments, network scanning, and ethical hacking. Eager to leverage technical expertise to safeguard systems and protect organizational assets.

Technical Skills

Penetration Testing

● ● ● ● ●

Familiar with identifying vulnerabilities and exploiting security flaws

Pentesting Tools

● ● ● ● ●

Nmap, Wireshark, Burp Suite, Metasploit, Hydra, FFUF, Hashcat, John the Ripper, SQLMap

Scripting and Programming

● ● ● ● ●

Python, JavaScript, Bash

Operating Systems

● ● ● ● ●

Windows, Linux (Kali, Ubuntu, Mint)

Hands-on Experience

Network Scanning and Enumeration

Conducted network scanning using Nmap and Wireshark to identify open ports and potential vulnerabilities.

Platform: TryHackMe (online)

Web Application Hacking

Exploited vulnerabilities such as SQL injection and XSS using Burp Suite.

Platform: TryHackMe (online)

Password Cracking and Brute Forcing

Used Hydra and John the Ripper for password cracking via brute force and dictionary attacks.

Platform: TryHackMe (online)

Vulnerability Exploitation

Leveraged known vulnerabilities in outdated software using Metasploit for exploit development.

Platform: TryHackMe (online)

Certificates

Web Application Pentesting (in progress)

Self-Study at TryHackMe (Online)

Jr Penetration Tester

Education

M.A Kanz ul Madaris Board	Karachi, Pakistan
B.A Tanzeem ul Madaris Ahl e Sunnat Board	Karachi, Pakistan
F.A Tanzeem ul Madaris Ahl e Sunnat Board	Karachi, Pakistan
Matric Tanzeem ul Madaris Ahl e Sunnat Board	Karachi, Pakistan

Interests

Ethical Hacking

I aim to participate in ethical hacking challenges to sharpen my skills as an aspiring hacker

Capture the Flag (CTF) Competitions

I am keen on joining online CTF events to build my problem-solving abilities in penetration testing.

Cybersecurity Research

Keeping track of the latest cybersecurity trends to expand my understanding.
